### Summary

As a Web Developer, I possess extensive experience in building web applications from front to back using PHP and Laravel. My proficiency with Vue.js and Tailwind CSS enables me to create responsive interfaces, while my background in Quality Assurance ensures the delivery of clean, high-quality code.

### Skills

Programming Languages	PHP
Frameworks	Laravel, Vue Js
Styling And Design	Tailwind CSS, Bootstrap CSS
Version Control	GIT
Soft Skills	Ability to Work in a Team, Communication Skills

### Education

#### High school diploma in Rekayasa Perangkat Lunak

SMK Negeri 1 Kota Bekasi, Kota Bekasi

05 - 2023

- Served as a member of the Entrepreneurship Division in the OSIS Student Council, where I participated in planning and executing school entrepreneurship programs, gaining valuable experience in **teamwork** and **business thinking**.
- Led the Physical Health and Creativity Division in the OSIS Student Council, promoting student **physical well-being** and **creative development**. I coordinated sports extracurriculars, including futsal, basketball, and volleyball, enhancing my **leadership**, **communication**, and **organizational skills**.
- Founded and led 'Clubing', the Coding Club of SMKN 1 Kota Bekasi, fostering peer learning in **programming** and **web development** through projects and knowledge sharing.

### Work Experience

#### Exi Global Aplikasi

Quality Assurance

2023-06 - 2024-07

- Ensured applications met **quality standards** by performing detailed testing and collaborating with development teams to maintain high-quality deliverables.
- Provided **daily reports** on application progress, enhancing transparency and aiding in strategic decision-making to improve project timelines.
- Assisted users by ensuring the application operation aligned with **predefined workflows**, improving user experience and satisfaction.

### Achievements

#### Founder of Clubing (Coding Club of SMKN 1 Kota Bekasi)

SMK Negeri 1 Kota Bekasi

2022

- Launched and managed a coding club for students, enhancing programming and web development skills through collaborative projects, reinforcing leadership and technical expertise.

#### Project Manager & Front-End Developer – OneMart Cashier App (Web-Based)

School Project

- Spearheaded and organized the creation of a web-based cashier app, ensuring cohesive team management and front-end excellence, particularly using Vue.js.
